EXPERIENCE

Ace Hardware Corporation, Oak Brook, IL - *Software Engineer and Database Administrator*

MAY 2017 - PRESENT

- As a DBA, I worked with technologies including SQL Server, Teradata, DB2, and Hadoop
- Responsibilities include monitoring, tuning, backup and recovery, troubleshooting, database design and implementation, requirements gathering, participating in 24/7 on call rotation
- As a developer, I designed and coded an Android app (Java) to track internal IT metrics
- Wrote ETL processes in Python to translate HiveQL into Cloudera's Impala SQL (Hadoop)
- Technical Lead on multiple projects including implementation of Informatica Enterprise Data Catalog (Hadoop) and Ace's Data Governance/Data Archive and Purge project

Palmer Consulting Group, Lisle, IL - *Software Developer Intern*

JAN 2017 - MAY 2018

- Intern during the last semester of my Master's Degree in C.S.
- Worked primarily with PL/SQL developing reports with Jasper and Crystal Reports

General Electric (GE), Louisville, KY & Springfield, MA - *Area Sales Manager*

JUNE 2012 - JUNE 2015

- Hired into GE's Sales Leadership Program; A rotational program that is used to identify future leaders at GE
- Responsible for conducting product training, identifying new business, developing marketing and promotional strategies, reporting via SalesForce.com and internal tools
